

## Response to Request for Information

**Reference:** 7177  
**Date:** 22<sup>nd</sup> November 2016  
**Type of request** FOI

### Chisholm Trail and Chesterton Bridge Cost-Benefit Analysis

Q1. I note from recent meeting notes that City Deal mention the Chisholm Trail having "a cost benefit ratio of 3.04:1. This is based upon the Department for Transport's Active Mode Appraisal Toolkit, and as such the scheme can be regarded as having a high benefit cost ratio." Please can you treat this as a Freedom of Information Request to supply any documents supporting the cost-benefit analysis on the Chisholm Trail and/or the Abbey-Chesterton Bridge, which are available?

Please find the requested information attached in Appendix 1 – CCC Cost Benefit Appraisals Abbey – Chesterton and Chisholm.
